Quarterly Indicators

Ulster County

Q3-2019

With the kids back in school and the weather cooling, the housing market begins its annual cooldown as well. Nationally, buyer and seller activity remained strong, buoyed by low mortgage rates and a strong economy. The market fundamentals suggest no significant changes from recent trends, other than the seasonally tempered pace we see this time of year. As we move into the final three months of 2019, buyers will find fewer homes coming on the market, but also less competition for those homes.

- Single-Family Closed Sales were up 1.4 percent to 145.
- Condos Closed Sales were up to 6.
- Co-ops Closed Sales finished the quarter at 0.
- Single-Family Median Sales Price increased 10.2 percent to \$249,000.
- Condos Median Sales Price was at \$134,500.
- Co-ops Median Sales Price had limited activity.

In Washington there are discussions around a broad overhaul of the housing finance system, including the re-privatization of Fannie Mae and Freddie Mac and reforms to federal agencies involved with financing substantial portions of the mortgages made every year. Many of these policy conversations and eventual changes will take months or years to be implemented and their impact is not yet clear. While Halloween decorations are beginning to adorn homes around the country, the real estate market this fall is looking far from scary.

Housing Affordability Index

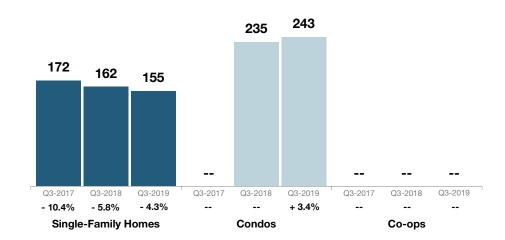

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

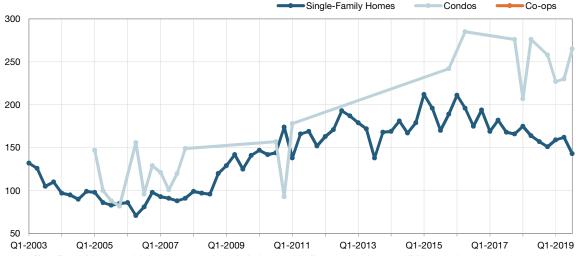

Ulster County

03-2019 **Year to Date**
